<p>Addressing Challenging Moments in Psychotherapy - Jerome S. Gans - 2021-09-30 This practical and helpful volume details how clinicians can work through various common challenges in individual, couple, or group psychotherapy. Chapters draw upon clinical wisdom gleaned from the author’s 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation. Along with theory and clinical observations, Dr.Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt and unilateral termination of therapy, the therapist’s loss of compassionate neutrality when treating a couple, and many more. Many of the "Clinical Pearls" prioritize working in the here-and-now. In addition to offering advice and strategies for therapists, the book also addresses concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, Addressing Challenging Moments in Psychotherapy is essential reading for all clinicians, teachers, and supervisors of psychotherapy.</p>

<p>Tunnels and Underground Cities: Engineering and Innovation Meet Archaeology, Architecture and Art - Daniele Peila - 2020-07-07 Tunnels and Underground Cities: Engineering and Innovation meet Archaeology, Architecture and Art. Volume 10: Strategic use of underground space for resilient cities contains the contributions presented in the eponymous Technical Session during the World Tunnel Congress 2019 (Naples, Italy, 3-9 May 2019). The use of underground space is continuing to grow, due to global urbanization, public demand for efficient transportation, and energy saving, production and distribution. The growing need for space at ground level, along with its continuous value increase and the challenges of energy saving and achieving sustainable development objectives, demand greater and better use of the underground space to ensure that it supports sustainable, resilient and more liveable cities. The contributions cover a wide range of topics, from investing in urban underground space, via effective use of underground space for sustainable cities, and the use of new energy carriers to the compound use of underground space for integrated campus-urban development. The book is a valuable reference text for tunnelling specialists, owners, engineers, archaeologists, architects, artists and others involved in underground planning, design and building around the world, and for academics who are interested in underground constructions and geotechnics.</p>

Victory Motorcycles 1998-2017 - Michael Dapper - 2018-04
With the 1998 debut of its V92C, Victory Motorcycles became the New American Motorcycle. Victory’s innovative, stylish heavyweight cruiser motorcycles attracted a loyal, hard-riding following, but not the market share needed to survive. This richly illustrated book covers the brand’s history model-by-model and analyzes why the parent company announced in early 2017 that its Victory division would cease operation. This book also features a full reprint of the collectible first Victory history from 1998, The Victory Motorcycle.

ASEAN as a Method - Ceren Ergenç - 2020-10-13
This edited volume proposes that an understanding of ASEAN - its development and institutionalization - is invaluable to our conception of international relations theory in the Asian context. Southeast Asia and ASEAN host peoples, ideas, institutions, and relations that contribute to a critical reassessment of theories in social sciences. In the field of IR, studies on transnational networks, diasporas, small states, middle powers, the role of history, and identity learn from Southeast Asian practices. ASEAN has long been established as an authoritative example of alternative ways of regional institutionalization. Besides empirical analysis, these fields can also benefit from their interactions with regional scholarly communities. This edited book offers an opportunity for a dialogue among scholarly communities on a variety of issues of which Southeast Asia and ASEAN provide ample opportunities for a critical analysis. This book will be of great interest to scholars of ASEAN, the broader Asian region, and for scholars of regionalism in general.

Ghostly Tales of Minnesota - Ruth D Hein - 1992-06-30

"According to the people who study such phenomena, ghosts are usually good spirits; friendly, protective, caring or helpful. Some are restless; some are mischievous. Others are so uncanny that their doings cannot be explained." This is a collection of stories about eerie happenings, unexplainable events and mysterious situations. There are tales of moving lights and footsteps in the snow that suddenly stop and disappear. Whether you believe in ghosts or not, Ghostly Tales of Minnesota is reading that is entertaining and thought-provoking!

My Name is Erin: One Girl’s Plan for Radical Faith - Erin Davis - 2013-07-22

Maybe you’ve had a moment when God did something radical in your heart. Putting your faith and trust in Him certainly feels like taking a giant leap, but really it’s just the beginning of the exciting, and—yes—radical journey that comes with agreeing to live as God calls you to. What does being radical look like? In the Bible, the common characteristics of "radicals" are: They trusted God. They listened to God’s voice and then obeyed—even when it cost them. Because of their faith, they lived lives that looked different from everyone else’s. That’s a short list and a tall order, but basically it means you can be a radical, too. There’s nothing on that list that is impossible for you. There’s nothing on that list that requires you to be older, or more financially stable, or to have a college degree. No matter who you are or where you live, you can live a radical faith. Meet Erin, who has learned practical ways to do just that. She’ll help you be radical, too. My Name is Erin: One Girl’s Plan for Radical Faith is one in a series of four books, which can be read in any order. The other titles are: My Name is Erin: One Girl’s Journey to Discover Truth My name is Erin: One Girl’s Journey to Discover Who She Is My Name is Erin: One Girl’s Mission to Make a Difference

Nations Under God - Luke M Herrington - 2015-08-16

'Nations under God: The Geopolitics of Faith in the Twenty-First Century' is a timely contribution to the on-going discussion on religion and politics. The volume brings together over thirty leading scholars from a variety of disciplines such as political science, international relations theory, sociology, theology, anthropology, and geography. Utilising case studies, empirical investigations, and theoretical examinations, this book focuses on the complex roles that religions play in world affairs. It seeks to move beyond the simplistic narratives and overly impassioned polemics which swamp the discourse on the subject in the media, on the internet, and in popular nonfiction, by acting as a vessel for scholarly research on religion. The book presents a balanced analysis of the multifaceted roles taken on by religions, and religious actors, in global politics. Contributors: Stephen Dawson, Jodok Troy, Gertjan Dijkink, John A. Rees, Mark S. Cladis, Fabio Petito, Linda Woodhead, Jonathan Fox, Brendan Sweetman, Don Handelman, Scott W. Hibbard, Ruy Llera Blanes, Fang-long Shih, Kaarina Aitamurto, Mona Kanwal Sheikh, Lee Marsden, Shireen T. Hunter, Nilay Saiya, Dan G. Cox, Pauline Kollontai, Francis Foret, James L. Guth, Brent F. Nelsen, Paul S. Rowe, J. Paul Martin, Allen D. Hertzke, Ishtiaq Ahmed, Jonathan Benthall, Elizabeth Shakman Hurd and Timothy Fitzgerald."

Visions of the Self: Rembrandt and Now - - 2020-09-15

A legendary painting by Rembrandt forms the centerpiece of this exploration of self-portraits by leading artists of the twentieth and twenty-first centuries. Published to commemorate an exhibition presented by Gagosian in partnership with English Heritage, this stunning volume centers on Rembrandt's masterpiece Self-Portrait with Two Circles (c. 1665), from the collection of Kenwood House in London. The painting is considered to be Rembrandt's greatest late self-portrait and is accompanied here by examples of the genre from leading artists of the past one hundred years. These include works by Francis Bacon, Jean-Michel Basquiat, Lucian Freud, and Pablo Picasso, as well as contemporary artists such as Georg Baselitz, Glenn Brown, Urs Fischer, Damien Hirst, Howard Hodgkin, Giuseppe Penone, Richard Prince, Cindy Sherman, and Rudolf Stingel, among others. Also featured is a new work by Jenny Saville, created in response to Rembrandt's masterpiece. Full-color plates of the works, generous details, and installation views of the exhibition accompany an expansive essay by art historian David Freedberg that provides a close look at the self-portraits created by Rembrandt throughout his life and considers the role of the Dutch master as the precursor of all modern painting.

Since We Were Friends - Zœe Haslie - 2021-09-28

Sixteen-year-old Regan Clark only longs for the summer camp trip her dad takes her and her three brothers in each year. But everything changes when the unimaginable happens—her best friend, and acquired fourth brother, Harper, turns into a big cheat and she gets cast aside. So when school starts again, Regan finds herself friendless, struggling with soccer practice and on the verge of failing math. On top of that, Harper's own issues lead him to move in with the Clarks, which makes it next to impossible to hide all the bad blood between them. But meeting Sophie turns into a mindblower, for Regan's introduced to the strange world of girls she's been missing out until now. And, much to her dismay, she soon finds out what hurts the most about losing her best friend—to be secretly in love with him.

The Lakes Region of New Hampshire - Bruce D. Heald, Ph.D. - 1996-09-01

Vivid and entrancing, the images of New Hampshire's Lakes Region included in this volume span more than a century of memories. Residents of the area, both natives and newcomers, will find a strong connection with the faces and places presented. The over 200 vintage photographs that make up this fascinating visual history take us to communities on Winnipausaukee, Newfound, and Squam Lakes. Readers also catch glimpses of bustling towns near Chocorua Lake, Winnisquam, Waukewan, and Wicwas. The focus for residents and visitors who come to this pristine area of New Hampshire has always been the lakes. From Alton Bay and Tamworth to Meredith and New Hampton, from Wolfeboro and Center Harbor to Plymouth and Bristol, people have enjoyed exploring, boating, and fishing. Some found a strong source of power for industry here; others built homes and schools; and many have simply enjoyed the cold, spring-fed waters of the lakes for recreation.

Success and Luck - Robert H. Frank - 2017-09-26

From New York Times bestselling author and economics columnist Robert Frank, a compelling book that explains why the rich underestimate the importance of luck in their success, why that hurts everyone, and what we can do about it How important is luck in economic success? No question more reliably divides conservatives from liberals. As conservatives correctly observe, people who amass great fortunes are almost always talented and hardworking. But liberals are also correct to note that countless others have those same qualities yet never earn much. In recent years, social scientists have discovered that chance plays a much larger role in important life outcomes than most people imagine. In Success and Luck, bestselling author and New York Times economics columnist Robert Frank explores the surprising implications of those findings to show why the rich underestimate the importance of luck in success—and why that hurts everyone, even the wealthy. Frank describes how, in a world increasingly dominated by winner-take-all markets, chance opportunities and trivial initial advantages often translate into much larger ones—and enormous income differences—over time; how false beliefs about luck persist, despite compelling evidence against them; and how myths about personal success and luck shape individual and political choices in harmful ways. But, Frank argues, we could decrease the inequality driven by sheer luck by adopting simple, unintrusive policies that would free up trillions of dollars each year—more than enough to fix our crumbling infrastructure, expand healthcare coverage, fight global warming, and reduce poverty, all without requiring painful sacrifices from anyone. If this sounds implausible, you'll be surprised to discover that the solution requires only a few, noncontroversial steps. Compellingly readable, Success and Luck shows how a more accurate understanding of the role of chance in life could lead to better, richer, and fairer economies and societies.

Sisters First - Jenna Bush Hager - 2017-10-24

The former first daughters share intimate stories and reflections from the Texas countryside to the storied halls of the White House and beyond. Born into a political dynasty, Jenna and Barbara Bush grew up in the public eye. As small children, they watched their grandfather become president; just twelve years later they stood by their father's side when he took the same oath. They spent their college years watched over by Secret Service agents and became fodder for the tabloids, with teenage mistakes making national headlines. But the tabloids didn't tell the whole story. In Sisters First, Jenna and Barbara take readers on a revealing, thoughtful, and deeply personal tour behind the scenes of their lives, as they share stories about their family, their unexpected adventures, their loves and losses, and the sisterly bond that means everything to them.

Go Like Hell - A. J. Baime - 2010-06-17

The epic story also told in the film FORD V. FERRARI: By the early 1960s, the Ford Motor Company, built to bring automobile transportation to the masses, was falling behind. Young Henry Ford II, who had taken the reins of his grandfather's company with little business experience to speak of, knew he had to do something to shake things up. Baby boomers were taking to the road in droves, looking for speed not safety, style not comfort. Meanwhile, Enzo Ferrari, whose cars epitomized style, lorded it over the European racing scene. He crafted beautiful sports cars, "science fiction on wheels," but was also called "the Assassin" because so many drivers perished while racing them.Go Like Hell tells the remarkable story of how Henry Ford II, with the help of a young visionary named Lee Iacocca and a former racing champion turned engineer, Carroll Shelby, concocted a scheme to reinvent the Ford company. They would enter the high-stakes world of European car racing, where an adventurous few threw safety and sanity to the wind. They would design, build, and race a car that could beat Ferrari at his own game at the most prestigious and brutal race in the world, something no American car had ever done. Go Like Hell transports readers to a risk-filled, glorious time in this brilliant portrait of a rivalry between two industrialists, the cars they built, and the "pilots" who would drive them to victory, or doom.

Renegade Hope - Severine Wolfe - 2017-12-16

Renegades were considered traitors. But, were they?Rylan had spent a lifetime hiding who he was, making sure he and his twin sister, Sensi, appeared to be just like everyone else on their homeland. But, when he is betrayed and sold into slavery he vows he will find out who did it and why. After his rescue, he plots and he plans, and then he runs into his bond mate. The woman is a cipher to him, a blank slate that he cannot read.Alana Myerson is angry. She is furious with short bursts of terror mixed in as she tries to cope with being on a foreign planet and not allowed to return to Earth. She hides her time learning the new languages that surround her in this new world, and she determines to do what no other linguist on Earth has done in a century, learn a brand-new language from the ground up. It is a new purpose. However, her determination to learn how language develops in telepathic races is stymied by refusal to learn the origins of their languages on their homeworlds.Both are forced to face their destiny together and learn that just because you've left Earth doesn't mean you've left politics behind. Rylan and Alana learn that betrayal is not always betrayal, and sometimes you have to betray what you love to rid it of the rot at its center.
